

CURRICULUM VITAE

PHILIPPE MORTIER, M.D., MSc., Ph.D.

Institution: Research Group Health Services - Epidemiology and Public Health Program, Hospital del Mar Research Institute

Address: Carrer del Doctor Aiguader 88, 08003 Barcelona, Spain

Telephone: +34 683 322 944

Email: pmortier@researchmar.net

Web of Science ResearcherID: [E-3756-2018](#)

ORCID: [0000-0003-2113-6241](#)

Scopus Author ID: [55626329800](#)

BIOGRAPHY

Dr Philippe Mortier (born 1984) is a medical doctor specialized in **psychiatry**, and a **statistician**. He is currently a **Miguel Servet postdoctoral researcher** at the Health Services Research Group, Hospital del Mar Research Institute (HMRIB), Barcelona, Spain.

In 2017, he obtained his doctoral degree in Biomedical Sciences at KU Leuven University, Belgium, with a doctoral thesis on the **prediction of suicidal thoughts and behaviours among university students**. He developed a series of multivariate predictive models for onset and persistence of suicidality, and evaluated their potential usefulness for the tailored allocation of prevention interventions among young people at risk for suicide. This work has led to the **real-world implementation of predictive algorithms to guide intervention allocation**, e.g., at Curtin University, Perth, Australia. During his doctoral studies, he was a **visiting scholar at the Department of Health Care Policy, Harvard Medical School**, Boston, MA, USA, under the supervision of **Dr Ronald C. Kessler**. He is still an active member of the **World Mental Health International College Student (WMH-ICS) initiative**, providing a multidisciplinary network of over 150 international leading researchers in psychiatric epidemiology.

In 2019, after completing his psychiatry training, he became a **Sara Borrell postdoctoral researcher** at the Health Services Research Group of HMRIB, Barcelona, under the supervision of Dr Jordi Alonso (h-index 140), Spain. He became involved in the CODIRISC research project, and was actively involved in the design of the Catalonia Suicide Risk Code Epidemiology study (DOI:10.1136/bmjopen-2020-037365), a large case-control study **to investigate the incidence and determinants of suicidality and death by suicide among Catalan residents**. In 2020, he also co-designed the MINDCOVID project, a series of prospective cohort studies that provide actionable knowledge on the course of adverse mental health during the Spain COVID-19 pandemic. Within this project, he led a line of ongoing research on **individual- and population level determinants of suicidality among Spanish healthcare workers and general population adults**. He also became a member of **CIBER in Epidemiology and Public Health (CIBERESP)**, the largest public health research network in Spain.

In 2022, he was awarded a 5-year **Miguel Servet research grant** to obtain research independence. As an **early career researcher**, his research interest is situated in the field of **clinical epidemiology of suicidal thoughts and behaviours**. He is particularly interested in the integration of various data sources (e.g., registry data, survey data, ecological momentary assessment data) to enable the construction of interpretable predictive models for suicide risk and related adverse outcomes, and the subsequent translation of these models into clinically usable and acceptable decision aid tools to improve real-world clinical management of adverse mental health. In 2022, he co-designed the PROMES-U project, in which he currently investigates the **role of stress sensitivity in short-term suicidal ideation onset among young people**, using ecological momentary assessment methods. In 2023, he became the coordinating principal investigator of PERMANENS (H2020 ERA-NET Cofund ERAPERMED2022-091; www.permanens.eu), a European research project focused on the development of **data-driven and evidence-based clinical decision support systems to improve the clinical management of suicide risk in current healthcare**. Related to this work, he is also the principal investigator

of two national research grants (Instituto de Salud Carlos III PI22/00107; Fundació La Marató De TV3 202220-30-31; www.cares.cat) that focus on the local development and implementation of suicide risk clinician aid tools within day-to-day healthcare practice.

Dr Mortier is a member of the Advisory Board of *The International Journal of Methods in Psychiatric Research*. He has presented his work through several oral presentations at international congresses, including invited presentations at the IASR/AFSP Suicide Research Summit and at the International Society for the Study of Self-Injury Conference. Dr Mortier has signed the **San Francisco Declaration on Research Assessment (DORA)**, and presents the quality of his work according to the DORA Building Blocks for Impact.

DORA QUALITY INDICATORS

SCIENTIFIC ARTICLES: total # citations (without self-citations) = 7,913 by 5,823 articles; # articles in peer-reviewed international journals = 113; **h-Index** = **37** (Web of Science, 10/09/2026). **CONGRESS PRESENTATIONS:** 17 oral presentations at international scientific congresses, 1 at a national scientific congress, and multiple additional oral and invited presentations at international, national, and local scientific meetings, including keynote and workshop presentations. **DATASETS:** key contributions to dataset construction in four projects, including the WMH-ICS initiative (Harvard University; 2017-ongoing), and the CSRC Epi study (HMRIB; 2018-ongoing).

TEACHING AND MENTORING: director of **4 Doctoral Theses** in Biomedical Sciences, Universitat Pompeu Fabra, Spain (one finalized 2026; three ongoing); director of **2 Master Thesis** in Public Health, Universitat Pompeu Fabra, Spain (one finalized 2021; one ongoing); co-director of **3 Master Theses** in Psychology, KU Leuven University, Belgium (finalized in 2015/2018/2025). Obtained the Universitat Pompeu Fabra **Teaching Mentorship Program certificate**, Spain (2022), a two-year faculty development programme in university teaching for postdoctoral researchers in life and health sciences, combining supervised hands-on teaching with training in higher-education pedagogy, curriculum development, teaching methods, and student assessment.

METHODOLOGICAL ADVANCES: Dr Mortier made substantial contributions to the construction of **integrative predictive models for suicide risk prediction** that take into account a large number of risk and protective factors (e.g., DOI: 10.1101/2025.09.26.25336360; DOI: 10.4088/JCP.17m11485; DOI: 10.1016/j.jad.2016.09.033; DOI: 10.1007/s00127-021-02151-4). In my currently awarded suicide research projects (2023), I will expand this research by **developing machine-learning based suicide prediction models**, and by testing their usefulness in **clinical decision support systems**.

EDITORIAL BOARD MEMBER: member of the Advisory Board of *The International Journal of Methods in Psychiatric Research* and of *The Journal of Emotion and Psychopathology*, a newly established journal offering fully open access with no fees for readers or authors.

OPEN SCIENCE: with few exceptions, my work in the recent 5 years as first, senior or corresponding author has been published as open access publications. Our research group increasingly shares research projects, analysis plans and codes, and preprints on open science repositories (e.g., open science forum [<https://osf.io/>], GitHub).

PEER REVIEW: since 2018, I have reviewed **at least 35 manuscripts** for internationally peer-reviewed journals (WoS confirmed reviews), including *The Lancet Public Health*, *The Lancet Child and Adolescent Health*, *Epidemiology and Psychiatric Sciences*, and *Journal of Affective Disorders*.

INTERDISCIPLINARY COLLABORATIONS: I have formalized **multidisciplinary partnerships at the regional, national and European level**, including with the National Suicide Research Foundation, UCC, Ireland (Ella Arensman), the National Centre for Suicide Research and Prevention, University of Oslo, Norway (Lars Mehlum), Karolinska Institute, Sweden (Johan Bjureberg), the Research Programme on Biomedical Informatics, UPF, Spain (Ferran Sanz, Manuel Pastor), and the PSMAR Hospital, Barcelona, Spain. I am a member of the **World WMH-ICS initiative**, a multidisciplinary network of over 150 international leading researchers, and a member of **CIBERESP**, the largest public health research network in Spain. I am an active

collaborator in the **TECSAM Network on innovation in mental health**, facilitating research transference and participation activities in Catalonia.

INDUSTRY COLLABORATIONS: for my currently awarded suicide research projects (2023), we have established informal contacts with Amalfi Analytics (CEO Ricard Gavalrà), a Barcelona-based enterprise that applies Artificial Intelligence and Machine Learning to healthcare management. In addition, we are formally collaborating with IThinkUPC on the development of ML-based prediction models and associated software solutions, and have successfully collaborated with IOMED on transnational health data harmonization.

EDUCATION

Doctor in Biomedical Sciences, Patient Related and Public Health Research Program (2012-2017)	Doctoral School of Biomedical Sciences, KU Leuven, Belgium
Master in Specialized Medicine - Adult Psychiatry (2010-2018)	Faculty of Medicine, KU Leuven, Belgium
Master in Statistics Quantitative Analysis in the Social Sciences (2014-2015)	Faculty of Science, KU Leuven, Belgium
Master in Medicine (2005-2010)	Faculty of Medicine, KU Leuven, Belgium
Bachelor in Medicine (2002-2005)	Faculty of Medicine, KU Leuven, Belgium

EDUCATION ABROAD

Visiting scholar at the Department of Health Care Policy, Harvard Medical School, Boston, MA, USA; McLean Hospital, 115 Mill Street, Belmont, MA 02478 (2017).

RESEARCH GRANTS AND AWARDS

1. **H2020 ERA-NET Cofund / Instituto de Salud Carlos III** – Coordinating Principal Investigator PERMANENS (2023-2026 - **ERAPERMED2022-091/AC22/00006**). Amount awarded: 250,000 €; total amount awarded: 1,220,413 €.
2. **Fundació La Marató De TV3** - Principal Investigator (2023-2026 – project number **202220-30-31**). Amount awarded: 199,687 €.
3. **Instituto de Salud Carlos III** – Principal Investigator RECIPROC (2023-2025 - **PI22/00107**). Amount awarded: 286,770 €.
4. **Instituto de Salud Carlos III** - Miguel Servet fellowship grant (2022-2026 - **CP21/00078**). Amount awarded: 242,500 €.
5. **Instituto de Salud Carlos III** - Sara Borrell postdoctoral fellowship grant (2019-2021 - **CD18/00049**). Amount awarded: 80,598 €.
6. **Research Foundation Flanders (FWO)** - Travel Grant for long stay abroad, Department of Health Care Policy, Harvard Medical School, Boston, MA, USA (**V408017N - 2017**).
7. **Psychiatry Trainee Publication Award** of the *Tijdschrift voor Psychiatrie [Dutch-Belgian Journal of Psychiatry]* (2016).
8. **Research Foundation Flanders (FWO)** - PhD fellowship grant – promoter Prof. dr. R. Bruffaerts (2013-2017 - **11N0514N/11N0516N**).
9. **Eli Lilly Research Fellowship Grant** (2012-2013 - **IIT h6u-bx-i002**).

SUPERVISING AND MENTORING ACTIVITIES

Co-Supervisor of Doctoral Thesis in Biomedical Sciences:

1. Portillo Van Diest, Ana (ongoing). Universitat Pompeu Fabra, Barcelona, Spain.
2. Alayo Bueno, Itxaso (finalized 2026). Universitat Pompeu Fabra, Barcelona, Spain.
3. Lopez Fernandez, Montserrat (ongoing). Universitat Pompeu Fabra, Barcelona, Spain.
4. Farré-Maduell, Eulàlia (ongoing). Universitat Pompeu Fabra, Barcelona, Spain.

Co-supervisor of Master Thesis in Psychology:

1. Van Saet, Marie (2025). Exploration of underlying comorbidity structures in healthcare workers with PTSD symptoms. A study among international healthcare professionals. Supervisor: Dr. Ronny Bruffaerts.
2. Van der donck, Jolien (2018). Suicidal Thoughts And Behaviors Among First Year College Students. Faculty of Psychology and Pedagogical Sciences, KU Leuven, Belgium. Supervisor: Dr. Ronny Bruffaerts.
3. Van Leuven, Annelore (2015). Validity Study Of A Substance Use Screener Among College Students. Faculty of Psychology and Pedagogical Sciences, KU Leuven, Belgium. Supervisor: Dr. Ronny Bruffaerts.

Supervisor of Master Thesis in Public Health:

1. Portillo Van Diest, Ana (2021). Post-Traumatic Stress among Spanish Healthcare Workers during the COVID-19 Pandemic. Faculty of Health and Life Sciences; Universitat Pompeu Fabra, Barcelona, Spain.
2. Font Guitart, Mariona (2026; ongoing). Individual- and population-level associations of substance use disorders with non-lethal self-harm and suicide: a quantitative registry-based cohort study. Faculty of Health and Life Sciences; Universitat Pompeu Fabra, Barcelona, Spain.
